Career Objective

I'm a developer with a strong focus on creating smooth, user-friendly UI/UX for mobile applications. I work with React Native to deliver cross-platform apps and also build complete solutions using the MERN stack. Passionate about solving real-world problems, I enjoy exploring new technologies and turning ideas into impactful digital products.

Experience

Software Developer (Intern) (*Granjur Technologies 5-months*)

- Developed cross-platform mobile apps using React Native
- Worked with TypeScript and JavaScript for scalable front-end designs
- Integrated APIs in a Node.js environment
- Collaborated with the development team to follow best coding practices

Education

Bachelor of Science in Computer Science

- *University of Central Punjab (UCP) — 2021–Present*

Intermediate (FSc - Pre-Engineering)

- *Punjab Board — 2019–2021*

Matriculation (Science)

- *Punjab Board — 2016–2018*

Technical Skills

- Languages: JavaScript, TypeScript, C++, Python
 - Frameworks & Libraries: React Native, React.js
 - Tools: Android Studio, Git, GitHub
 - Others: RESTful APIs, Cross-platform Mobile App Development
-

Academic Projects

As Project Lead, I handled full stack development, including:

- Backend in Node.js (Express) with JWT auth
 - REST APIs for search, posts, chatbot etc
 - Frontend using React.js + Tailwind CSS
 - MongoDB schema design and cloud deployment
 - GitHub-based CI/CD workflow
-

Soft Skills

- Fast Learner
 - Strong Communication
 - Team Player
 - Problem Solving
-
