Career Objective

To leverage my skills in full-stack and cross-platform development to build scalable, user-focused applications. I aim to contribute to a dynamic team where I can apply my problem-solving abilities and continue to grow as a developer.

Experience

Software developer Intern (Intern) (***Granjur Technologies 5-months***)

Developed cross-platform mobile applications with a focus on performance and user experience. Wrote clean, maintainable code using modern programming standards. Integrated APIs and optimized data handling to improve app responsiveness. Collaborated with team members to ensure consistency, scalability, and adherence to coding best practices
