BACHELOR'S IN COMPUTER SCIENCES- UNIVERSITY OF CENTRAL PUNJAB

WORK EXPERIENCE

19/01/2026 - LAHORE DHA PHASE- 8, PAKISTAN

SOFTWARE DEVELOPER -IK GROUP OF COMPANIES

Responsible for developing and maintaining software applications, implementing new features, managing databases and integrations, troubleshooting technical issues, improving system performance, collaborating with team members, and ensuring smooth deployment and maintenance of applications.

07/03/2025 - CURRENT

FREELANCING -OUTSOURCED PROJECTS

I worked as a Freelance Full-Stack Web Developer on outsourced projects, where I was responsible for designing, developing, and deploying complete web applications. I handled both front-end and back-end development, built responsive user interfaces, implemented server-side logic, integrated databases and APIs, and ensured application performance, security, and scalability. I collaborated with clients to gather requirements, deliver features on time, and maintain high-quality web solutions.

07/08/2024 - 30/01/2025 - LAHORE, PAKISTAN

MOBILE APPLICATION DEVELOPER -GRANJUR TECHNOLOGY

I worked as a Mobile App Developer Intern (Front-End) at Granjur Technology, where I was responsible for developing and maintaining front-end features for mobile applications. I designed responsive and user-friendly interfaces through coding , converted UI/UX designs into functional app screens, and collaborated closely with back-end developers and designers to implement application functionality. I also participated in debugging, improving performance, and ensuring a smooth user experience while following best practices in mobile app development.

PROJECTS

06/02/2026 - 15/09/2026

Ride Xpress Worked on RideXpress, a UK-based taxi booking platform, developing passenger and driver mobile applications and an admin panel. Implemented instant and scheduled ride bookings, regional fare calculations, driver tracking, real-time ride updates, push notifications, and ride management features for passengers, drivers, and administrators.

09/09/2026 - 12/10/2026

Tugo Move Worked on the TugoMove platform, developing and maintaining passenger and driver mobile applications and an admin dashboard. Implemented ride booking, transport service management, pricing configurations, multilingual support, and backend integrations to improve the user experience and streamline platform operations.

01/02/2026 - 20/03/2026

School Central X Worked on the School Central X mobile application, implementing new features, improving user authentication and security, integrating backend services, managing application navigation, fixing bugs, and ensuring a smooth and reliable user experience.

07/11/2023 - 11/02/2025

FYP - GamesScout MarketPlace I completed my final year project as a Full-Stack Developer **with my group members**, developing **GAMESCOUT Marketplace**, a web-based platform. I contributed to both front-end and back-end development, including building responsive user interfaces, implementing core application logic, integrating databases and APIs, and ensuring secure and efficient performance. I collaborated closely with my team to plan features, solve technical challenges, and deliver a complete marketplace application following full-stack development best practices.

VOLUNTEERING

01/03/2024 - 10/05/2024 ALLAH WALLAY TRUST Johar Town Lahore,Pakistan

Distribution And Serving I served as a Volunteer at **Allah Walay Trust**, Johar Town, Lahore, Pakistan, where I contributed to various community welfare activities as part of my university requirements. My responsibilities included assisting in the organization of charitable events, supporting donation and distribution activities, and working collaboratively with team members to help underprivileged individuals and families. This experience enhanced my sense of social responsibility, teamwork, and communication skills.

SKILLS

Microsoft Excel | computer programming | Microsoft Word | debug software | web services | identify customer requirements | engineering principles | use an application-specific interface | integrated development

environment software | use technical drawing software | engineering processes | use software libraries | develop automated migration methods | technical drawings | analyse software specifications | perform scientific research | ICT debugging tools | create flowchart diagram | use software design patterns | tools for software configuration management | define technical requirements | manage engineering project | develop software prototype | project management | interpret technical requirements | utilise computer-aided software engineering tools | Mobile Applications | Web Applications | WordPress

LANGUAGE SKILLS

Mother tongue(s): **URDU**

Other language(s): **ENGLISH**
