WORK EXPERIENCE

MOBILE APPLICATION DEVELOPER – GRANJUR TECHNOLOGY – 07/08/2024 – 30/01/2025 – LAHORE, PAKISTAN

I worked as a Mobile App Developer Intern (Front-End) at Granjur Technology, where I was responsible for developing and maintaining front-end features for mobile applications. I designed responsive and user-friendly interfaces through coding , converted UI/UX designs into functional app screens, and collaborated closely with back-end developers and designers to implement application functionality. I also participated in debugging, improving performance, and ensuring a smooth user experience while following best practices in mobile app development.

FREELANCING – OUTSOURCED PROJECTS – 07/03/2025 – Current

I worked as a Freelance Full-Stack Web Developer on outsourced projects, where I was responsible for designing, developing, and deploying complete web applications. I handled both front-end and back-end development, built responsive user interfaces, implemented server-side logic, integrated databases and APIs, and ensured application performance, security, and scalability. I collaborated with clients to gather requirements, deliver features on time, and maintain high-quality web solutions.

PROJECTS

07/11/2023 – 11/02/2025

FYP - GamesScout MarketPlace

I completed my final year project as a Full-Stack Developer **with my group members**, developing **GAMESCOUT Marketplace**, a web-based platform. I contributed to both front-end and back-end development, including building responsive user interfaces, implementing core application logic, integrating databases and APIs, and ensuring secure and efficient performance. I collaborated closely with my team to plan features, solve technical challenges, and deliver a complete marketplace application following full-stack development best practices.
